EDUCATION

Bachelors in Electronics, Communication and Information Engineering **Nov 2018 - Apr 2024**
Paschimanchal Campus, Tribhuvan University Pokhara, Nepal
Grade - 62%

SKILLS SUMMARY

- **Languages:** Python, SQL, C++, JavaScript, Java, HTML, CSS
- **Frameworks:** Pandas, PySpark, Tensorflow, Keras, PyTorch, Docker, Kubernetes, SK-Learn, Seaborn, Plotly Express, Open3D, OpenCV, Numpy, Matplotlib, MongoDB
- **Tools and Technologies:** Git, BeautifulSoup, Version Control, RestAPI, Jupyter Dash, Streamlit, PowerBI, Jupyter Dash
- **Cloud:** AWS S3, EC2, Airflow, Azure AI Fundamentals
- **Platforms:** Google Colab, VS Code, Jupyter Notebook, Kaggle, PyCharm

WORK EXPERIENCE

Coding Instructor | Codingal **Oct 2023 - present**
- Taught programming (Python, Java, JavaScript), Machine Learning, Deep Learning, Data Science, Front-End Development
- Curriculum Development and Lesson Planning

Research Intern | NAS-IT **Jan 2024- Feb 2024**
- Data Collection of Tender Notices under Government procurement
- Analyzing data to derive inferences and conclusion
- Identifying roadmap of research

Data Engineer Associate Trainee | Fusemachines **Aug 2023 - Sept 2023**
- Understanding Python, SQL, GIT, APIs, Pandas, AWS Fundamentals, ETL/ELT, Data Pipelines, Snowflake
- Completing Assignments
- Presenting Conclusions

Coding Instructor | Mero Coding Classes **May 2023 - Nov 2023**
- Teaching Python, Scratch and Web Development in STEM Curriculum
- Building Curriculum

Applied Data Science Lab | WorldQuant University **Mar 2023 - Sept 2023**
- Completed 8 projects on real world data
- Areas of projects are: Housing, Air Quality, A/B Testing, Customer Segmentation, Bankruptcy, Earthquake Damage, Market Forecasting

PROJECTS

Ball Detection and Tracking **status: ongoing**
Dataset: Manually collected using camera
Annotation: Roboflow
Detection Architecture: YOLOv9, RESNET50
Overview: Review controversial umpiring decision using single common camera

Hoarding Board Detection and Content Extraction **status: ongoing**
Dataset: Manually collected using camera and LIDAR
Annotation: Roboflow
Detection: Yolov9
Overview: Detecting hoarding boards in Thailand, extracting the textual content, identifying number of languages used, calculating tax with the extracted information.

Chatbot based support system for Mental Well-Being **status: completed**
Omdena Collaborative Project
Dataset: AnnoMI_dataset_ml - Sheet1.csv, mentalhealth.csv, global_therapy_list_new.json
GitHub: Link
Certificate: Link

Sentiment Analysis using Transformer **status: completed**
Dataset: amazon-fine-food-reviews.zip
Overview: Determining customer reviews of a product as positive, neutral or negative
GitHub: Link

CERTIFICATIONS

Applied Data Scientist | WorldQuant University

Microsoft Certified: Azure AI Fundamentals | Microsoft

Autonomous AI for Industry | Microsoft | University of Washington

Chatbot Based Support System for Mental Health and Well Being | Omdena

Tensorflow: Advanced Techniques | DeepLearning.AI

- Custom Models, Layers, and Loss Functions with TensorFlow
- Custom and Distributed Training with TensorFlow
- Advanced Computer Vision with TensorFlow
- Generative Deep Learning with TensorFlow

Machine Learning Specialization | DeepLearning.AI

AWS Fundamentals Specialization | AWS

SQL for Data Science | UC Davis

Python for Data Science | Uplimit

Introduction to Deep Learning and Neural Networks with Keras | IBM

Problem Solving with DSA | **Hackerrank**

Cognizant Artificial Intelligence | **Cognizant**

ACHIEVEMENTS

Runner up | Code with Coffee | I-CES, Paschimanchal Campus

Participation | Hult Prize | Hult Paschimanchal Campus

Mentored students as a Coding Instructor win Inter-college Hackathon Competition

Mentored students of age group 9-14 to create their personal portfolio website

Mentored students of age group 7-18 to learn python and scratch programming and make games, animations, stories.
